

REMARKS

The specification is amended to correct a typographical error where, in a single instance, Y₃ is designated Y₁. As Y₁ and Y₂ refer to bicyclic and tricyclic systems, respectively, one of ordinary skill in the art would recognize that the proviso "Y₁ cannot be an optionally substituted phenyl" must refer to Y₃ which may be defined as a phenyl or heteroaromatic ring. Applicant hereby states that the amendments and new claims do not represent new matter. The Applicants do not intend by these or any other amendments to abandon the subject matter of any claim as originally presented, and reserve the right to pursue such subject matter in other applications, such as continuing applications and divisional applications.

Allowance of all pending claims in the application is respectfully requested in view of the foregoing amendments and remarks. Should the examiner wish to discuss the foregoing, or any matter of form in an effort to advance this application toward allowance, the examiner is urged to telephone the undersigned at the indicated number.

Respectfully Submitted,

MARSHALL, GERSTEIN & BORUN
